4 Activity: mirror teeth detective

You need:

- a mirror
- an apple or a roti

Steps:

1. Smile into the mirror and look at your front teeth.
2. Find the pointed teeth next to them.
3. Open wide and look at your back teeth.
4. Bite an apple, tear a roti, then chew. Which teeth did each job?

Safety: Wash your hands before and after.

5 My teeth table

Teeth	What do they look like?	What job do they do?
Front		
Pointed		
Back		

Think: We have flat AND sharp teeth. So are humans herbivores, carnivores or omnivores?

6 Test yourself

1. A cow has flat teeth. What does it eat? *(plants / meat / both)*

2. Name two animals that lay eggs.

3. How does a snake move? *(fly / crawl / hop)*

4. Write two things we get from animals.

5. How can you help birds in a hot summer?

Answer key (for parents and tutors):

1. Wild: lion, elephant, giraffe. Domestic: cow, goat, horse. Pet: cat, parrot.
2. Honeybee–beehive, bird–nest, spider–web, horse–stable, lion–den.
3. Dog–puppy, cat–kitten, cow–calf, horse–foal, hen–chick.
4. Front: flat, sharp edge – biting. Pointed: sharp – tearing. Back: wide, flat – grinding. Humans are omnivores.
5. (1) plants (2) e.g. hen, sparrow (3) crawl (4) e.g. milk, eggs, honey, wool (5) keep a shallow bowl of water in the shade and change it daily.
